# Good News For YOU FROM THE BIG STORE

## FERTILIZER OF ALL KINDS

We will as usual handle several lines of the leading brands of Fertilizers, Acids, Murate of Potash, Nitrate of Soda, and Top Dressers, and you will always find the prices here just as low as you will anywhere for the same standard of quality—that you will always find at the Big Store. We will appreciate your business this season. Come in and figure with us.

When we announced last Fall that we would close out our Dry Goods business we meant it. We had phenomenal success and we are now with just a handful of these goods left. We promised you also that the new season would see this store expand in every way larger and better selections in the lines to be featured in the future and we are now in position to make the announcement to you that we have made good—the goods are here—others coming on every train and right now we are ready to show you the largest stock of goods under one roof in this section. THE BIG STORE holds a cordial welcome for everyone at any time that suits your convenience—and your presence will always be appreciated by us and we'll do everything in our power to make the visit pleasant and if you buy you may rest assured that you have bought as cheap—in nine cases out of ten cheaper—than you would have gotten the same goods elsewhere. Again we say—

We can show you more goods under one roof than any other store in this section—Not taking into consideration our dry goods department at all.

## Goods Coming in by the Car Load!

Every train coming into Pickens carries car load after car load of goods for the Big Store. Wagons, Buggies, Furniture, Farm Implements, Stoves, Ranges, Hardware, Lime, Cement, Roofing, Building Materials, Gasolene Engines, Pumps, Heavy and fancy Groceries Etc.

Everything you want for the farm or home at a good substantial saving in price!

## STILL CLOSING OUT THE DRY GOODS

The stock is fast melting away, but there are lots and lots of good Bargains here for you yet. When in the store drop around to this department and see what opportunity there is here for money saving. The prices are just as low as they possibly can be made and we are doing nice business each day in this department. But stocks are getting in such condition that this cannot keep up long. If you want some of these Bargains our advice to you is COME NOW.

## Keep in Touch With the Big Store

It will always pay you. We are in better shape than ever to serve you—better in every way. Stocks are bigger, selections are better and values are better. You owe it to yourself to see what we have before you buy. Get our prices, make an honest comparison between our goods—our prices—and the other fellow, then you decide where it pays you to buy.

## Bigger Buying Power Means Better Buying Power.

Buying as we do for SPOT CASH in quantities, we get the jobbers price on everything that comes into this store. This means considerable savings to our customers as we not only get this saving, but we also save clean money on discounts and anticipated payments. Comparison on your part with prices in other store will demonstrate this to you.
